# Special Pad printing machine with 90 degree pad swivel

PAD PRINTING MACHINE

## MSS 130

The MSS 130 is a compact and robust pad printer that has been specially designed for printing graphics that are positioned in a vertical orientation. The MSS 130 is very reliable and simple to operate and it is well suited for both automated systems or as a stand-alone printer module. The controls of the MSS 130 can be positioned in either the front of the machine or in

the back of the machine depending upon your production requirements. All microPrint machines are built with only the best quality components and our workmanship is unparalleled.

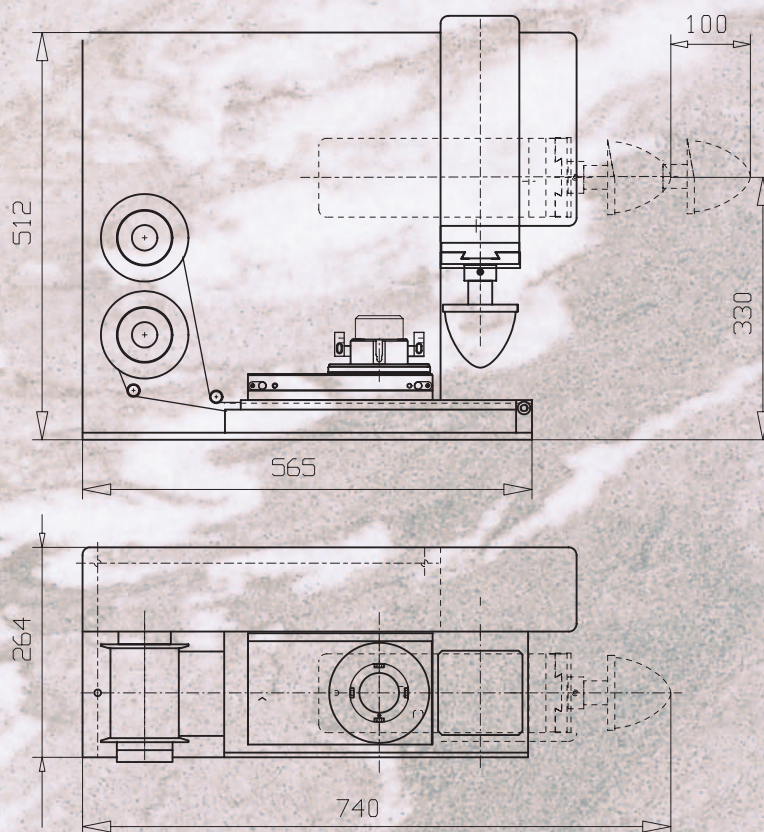

### Worldwide service

All microPrint machines come complete with our worldwide customer service network and are backed with a **1 year** limited warranty.

### Technical data
