Pad Printing Machine with 90 degree pad swivel

PAD PRINTING MACHINE

MSS 350

The MSS 350 is a compact and robust pad printing machine that has been fine-tuned for performance. The MSS 350 is very reliable and simple to operate, and it works well as a stand-alone printer or is easily integrated into automated systems. In building all microPrint machines

we use only top quality world class components and our workmanship is unparalleled.

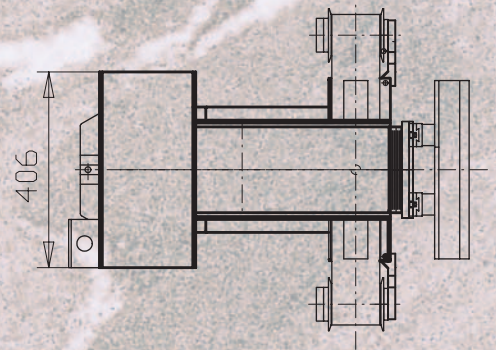

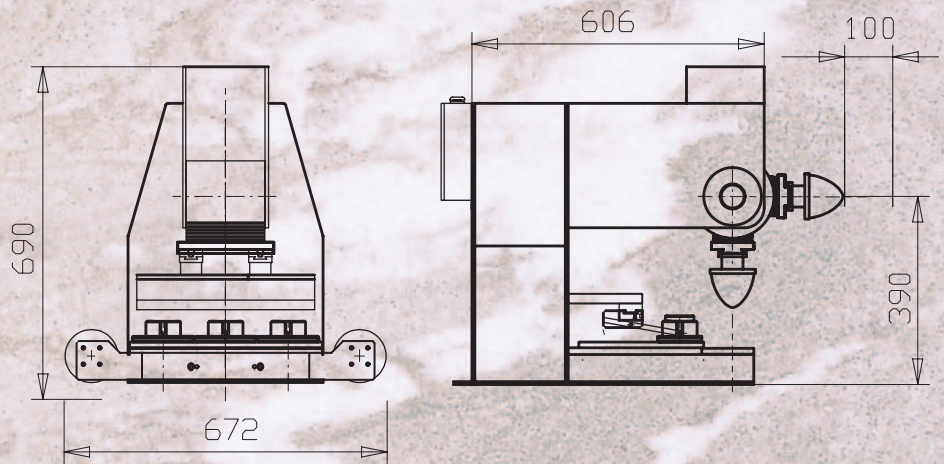

Worldwide service

All microPrint machines come complete with our worldwide customer service network and are backed with a **1 year** limited warranty.

Technical data

with pad cleaning:	up to 900 / hr
Drive:	pneumatic / electric
Printing force:	max. 1100 N
Pad stroke:	max. 90 mm
Compressed air supply:	5-6 bar (87 psi)
Air consumption:	105 l/min
Control system:	PLC Panasonic
Main voltage:	110 – 240V / 50–60Hz
Control voltage:	24 VDC
Weight Module:	96 kg
Dimensions:	see illustration
Plate size	
Closed system:	max.400 x 250 x0.5mm max.260 x 250 x10mm
Plate thickness:	0.5 or 10 mm
Cup size Ø: 6x 56 mm	Print Ø: 6x 46 mm
Cup size Ø: 5x 70 mm	Print Ø: 5x 60 mm
Cup size Ø: 4x 86 mm	Print Ø: 4x 76 mm
Cup size Ø: 3x 120 mm	Print Ø: 3x 110 mm
Number of colours:	1-6
